Herschel 400 Deep Sky Catalogue

Jim Cornmell

v0.1 - January 2013

INTRODUCTION

Welcome to my Herschel 400 Deep Sky Catalogue. This is designed to complement the information available from my website http://www.JimsCosmos.com/and being a lightweight deep sky guide for use at the eyepiece. It does not contain exhaustive information for each object, see the references section sec:references to obtain more detailed information. However this pocket guide does contain enough information to find the objects, see a little information on each object including images from DSS.

1.1 Layout and Key concept

The remainder of the pocket guide displays each object in turn with the following information:

- Star chart
- Key facts
- Image from the DSS
- Links into my site which intrun link to key sources

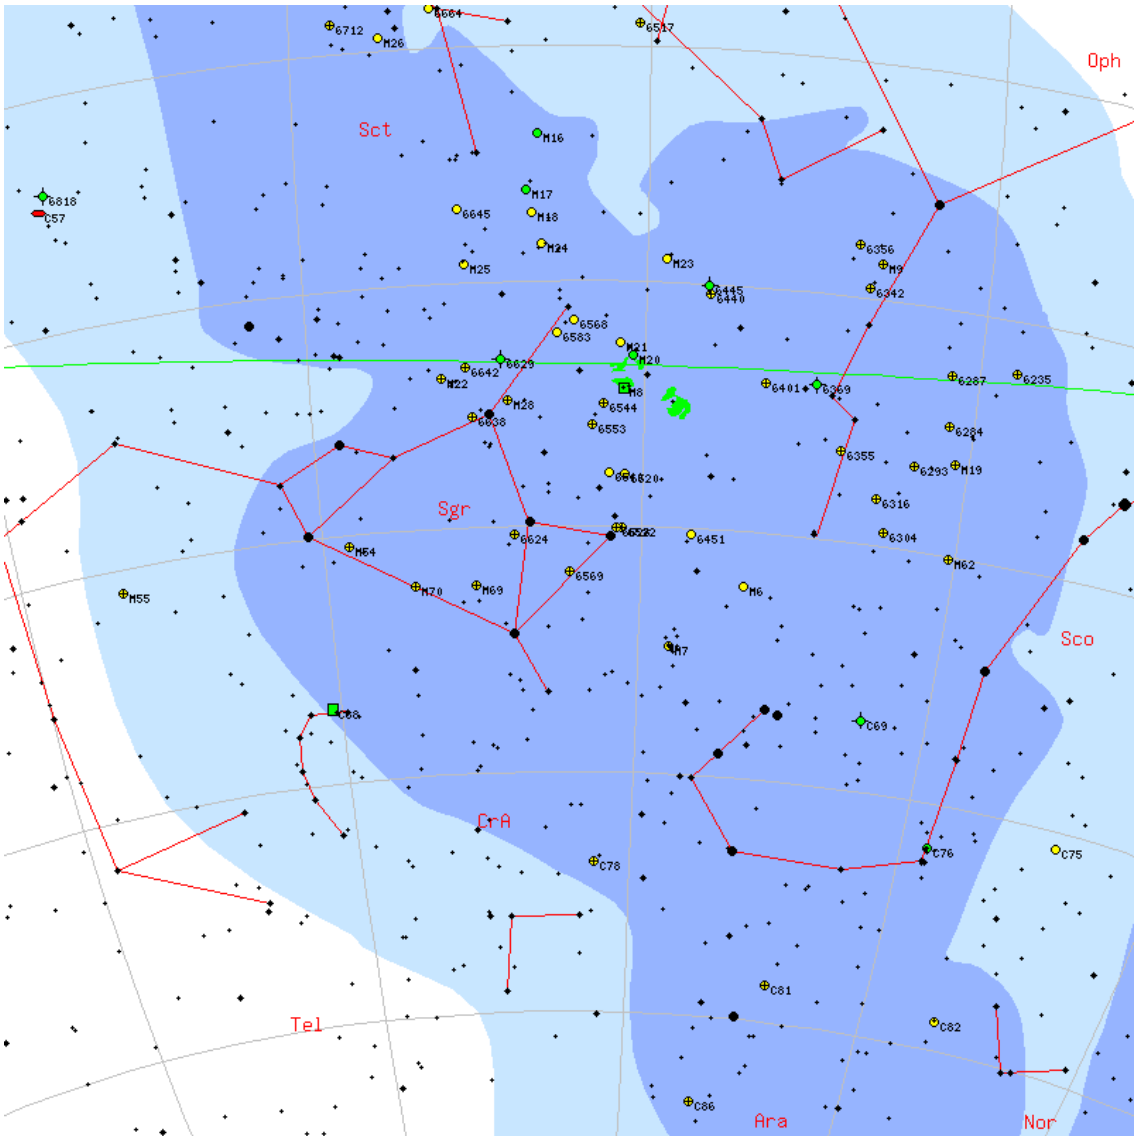

Also note that:

- The page number councides with the objects ID
- Each page has the same layout
- All information coincides with information from my website http://www.JimsCosmos.com/

1.2 Printing

This pocket guide is designed to be printed as a double sided A5 booklet (4 pages a sheet), or kept as a PDF document.
